

AT THE START OF A NEW YEAR...

This is always a good time to think and pray about our goals and dreams for the year ahead. We will never reach our goals without doing some planning. Here are some pointers:-

1. Define your goals.
2. Identify resources to help you achieve your goals, find and use them.
3. Create plans and activities and incorporate them into your weekly agenda.
4. Look for ways to over-achieve.
5. Solicit help from others on how you can over-achieve.
6. Measure your own success – continually.
7. Notice what is working and what is not.
8. Learn from mistakes or failures.
9. If you are uncertain on how to do something, get some help.
10. Create your mission statement and **choose to** live your life **on purpose**.

Maybe we should start by determining our passion. If we are doing what we are passionate about we are more likely to achieve our goals.

What do I really want to do with my life?

What am I passionate about?

What do I love?

Where would I go if I had the freedom to go anywhere?

What would I do if I could do anything?

Who would I become?

What gives me the most satisfaction in my life?

What do I really enjoy doing in my spare time?

What motivates me?

What inspires me?

What excites me?

What drives me?

When I have had the experience of jumping out of bed with excitement, what was the cause?

What have I done in the past that has given me the most pleasure?

How do I want to contribute to the lives of others?

What would I like to give to others?

How would I like to be remembered?

If I were granted one wish, & I knew that that wish would be granted, what would I wish for?

“SUCCESS: Some people dream about it, while others wake up and work hard at it.” - Benjamin Franklin

May we all experience a fulfilling and blessed 2013!

NEW CAPS CURRICULUM

The new school year is underway and there are many positive developments at Skillspro Futurekids, e.g. the launch of our new CAPS curriculum for primary schools. This takes integrated teaching to a whole new level. Please make an appointment with your Regional Manager if you want to hear more about our amazing new product.

ACE EDUCATORS' CONVENTIONS

These take place from the 21 February and occur all across the country. Skillspro will be hosting a workshop on “Computer options for graduation”. This will cover the different options for students wishing to have computers as one of their major subjects for graduation, and will include detailed discussions of both the 4-credit Computer Education major and CAT.

PLEASE REMEMBER:

- The new CAT CAPS grade 11 manuals are available to order.
- Skillspro Online registrations should be done by end of March to avoid late registration fees.
- IT teachers need to attend the term curriculum training meetings in their area.

Please feel free to contact Janet Harris (082 7804343) or send an email to janet@skillspro.co.za if you want any further information or to get in touch with your local Skillspro Futurekids representative.
